# Our 2025 Awards

We are thrilled and honoured that 2025 has been another year of innovation recognition.

## Sustainable steps forward - crafting with a conscience

At Craft Buddy, we believe in taking small steps to make big changes. We are dedicated to reducing our environmental impact through thoughtful updates by reducing unnecessary waste in our kits.

We are excited to announce the first of many innovative updates to our popular Crystal Art® products. We are implementing our sustainability programme, by starting with some of our best sellers, the Crystal Art® Buddies, Bag Charms and Card kits:

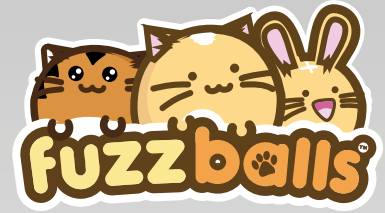

- Replacing our inner polybags with paper bands
- Swapping plastic pick-up pens with cardboard alternatives
- Reducing the use and number of Ziplock storage bags within each kit
- Being cost-neutral for our customers, without compromise on quality or price, meaning our changes do not impact the cost of our products for our customers

These developments, highlighting our dedication to innovation, mark just the beginning of a gradual implementation process aiming to improve our product's recyclability and reduce waste and carbon emissions. We are committed to ensuring that you continue to enjoy and feel good about your Craft Buddy crafting experiences.

### Paint by Numb3rs™

Paint By Numbers is a well-established hobby; however, our kits enable the hobbyist to create a beautiful, painted masterpiece on a premium linen canvas that has already been pre-stretched and mounted on a wooden frame. Displaying your finished creation is therefore quick and effortless. As well as the stretched and mounted canvas, our kits come with full instruction manuals, three wooden paintbrushes and high quality acrylic paints. Our Paint By Numb3rs range features gorgeous artwork by Anne Stokes and Rachel Froud.
