UPCYCLE

DESIGN

We are excited to announce the first of many innovative updates to our popular Crystal Art products. We are implementing our sustainability programme, by starting with some of our best sellers, the Crystal Art Buddies, Bag Charms and Card kits:

- Replacing our inner polybags with paper bands
- Swapping plastic pick-up pens with cardboard alternatives
- Reducing the use and number of Ziplock storage bags within each kit
- Being cost-neutral for our customers, without compromise on quality or price, meaning our changes do not impact the cost of our products for our customers

These developments, highlighting our dedication to innovation, mark just the beginning of a gradual implementation process aiming to improve our product's recyclability and reduce waste and carbon emissions. We are committed to ensuring that you continue to enjoy and feel good about your Craft Buddy crafting experiences.

Paint by Numb3rs™

Paint By Numbers is a well-established hobby; however, our kits enable the hobbyist to create a beautiful, painted masterpiece on a premium linen canvas that has already been pre-stretched and mounted on a wooden frame. Displaying your finished creation is therefore quick and effortless. As well as the stretched and mounted canvas, our kits come with full instruction manuals, three wooden paintbrushes and high quality acrylic paints. Our Paint By Numb3rs range features gorgeous artwork by Thomas Kinkade, Anne Stokes, Rachel Froud and some beautiful licensed Peter Rabbit and Paddington imagery.
