

A vibrant collage of various geometric models constructed from colorful sticks and connectors. The models include a cube with a landscape scene, a sphere with colorful rings, a star-shaped structure with multiple points, and a cube with a SpongeBob SquarePants face. Other models include a cube with a cartoon character, a star-shaped structure with multiple points, and a cube with a cartoon character. The central text "2024 FUN BOOK" is prominently displayed in white on an orange background. The collage is set against a green background with a pattern of small white triangles.

SHASHIBO® BATTLE SHAPES®

Shashibo Battle Shapes is a puzzle game with magnetizing twists and turns. It's a battle of brains to see who can accumulate the most points by creating shapes the fastest! The game features a deck of cards showcasing a different Shashibo shape on each card and a point system for easy, moderate, or difficult shapes. Special wild cards are also included. Players flip the Battle Coin to determine a solo or battle round and then draw a card and compete to see who can create the shape first and fastest! The game set includes 2 matching Shashibo magnetic puzzle cubes with a special edition design, a deck of cards, a minute glass timer, a special edition Battle Coin and a bell. Each shape card features a QR code linked to a video so players can learn how to make the shape.

Cubes with Tectonic Moves

- Contains 44 plates, 20 hinges and 6 keystone plates
- Structures move and transform with built-in hinges
- Build over 50 structures of 4-12 cubes
- Scalable and modifiable
- Easy to disassemble
- Combine sets to build superstructures

TECTI

Item #: TK3-01B

TECTI® presents a turning point in building toys! With TECTI, people can create more than 50 kinetic structures out of interlocking, movable cubes. Each cubotic structure shifts into different shapes with tectonic-like movement thanks to TECTI's patented built-in hinges. Love a certain shape? Lock your creation in place with a keystone, a single cube to insert into your structure to prevent it from moving. Or keep exploring what you can create next!

INVENTOR SPOTLIGHT **Erik Äberg**

Erik is an artist based in Stockholm, Sweden. He designs movable sculptures and has performed across Europe, Japan, Canada and the USA. Flms of his work have gone viral with millions of views.

Fun Fact: Erik is a professional juggler and juggling historian.
